1100 West Wells Street, Apt 1504
Milwaukee, Wisconsin 53233

SUMMARY

A self-starting, quick to learn, and collaborative developer with real projects in production.

SKILLS AND PROFICIENCIES

- Frontend: JavaScript, React, NextJS, CSS, HTML
- Backend: Node.js, Express, MongoDB, GraphQL
- Deployment: Git, Github, Firebase, Heroku, Ubuntu Server
- Design and Adobe Creative Cloud
- Teamwork, collaboration, and project management

PROFESSIONAL EXPERIENCE

Communications Specialist   September 2018 - September 2021
Duke University | Durham, N.C.

Created digital and print deliverables to promote programs, market events, and connect with our community. Managed a website using Drupal, and participated in a re-design of the website. Collaborated with colleagues on a variety of projects, and managed them from inception to delivery.

Designer & Photographer   May 2015 - July 2018
Fairfax Community Church | Fairfax, VA

Designed digital and print material for events, services, productions, and marketing. Managed a website using Wordpress. Worked as part of a team to build a cohesive and recognizable brand in our community. Planned and managed the social media calendar, taught photography workshops, and copy edited public-facing writing.

PROJECTS

Everyday Notes   everydaynotes.net
React + Node + Express + MongoDB

A full stack project that allows users to chronicle their thoughts daily and upload images attached to journal entries.

Writing Portfolio   daniellagoldfarb.com
React + GraphQL + GraphCMS

A writing portfolio sites for scholars and students that allows them to publish their own content and biography using a headless CMS.

Know Your Democracy   knowyourdemocracy.com
React + Google Civic API + Google Places API

A website that allows residents of the United States to input their address and see who represents them in government, as well as any upcoming elections near them.
